## I. About Japan Residential Property Price Index (JRPI)

### 【Background】

The International Monetary Fund and other international organizations recommended the G20 countries to compile residential property price indices (RPPI) based on the international RPPI Handbook. (A coordinated team of international organizations worked together and edited the Handbook in May 2011.)

MLIT launches provisional compilation of the “Residential Property Price Index”, based on the actual transaction data of residential property (approximately 300 thousand transactions every year) to provide indices by Region and Metropolitan Areas in August 2012.
