ISKANDAR
MALAYSIA

Here and Now

Expectations from the UGG Study

- 1 Get new ideas and approaches on UGG on how other cities developed, planned and managed their own green agenda for cities and urban areas.
- 2 How to develop green-related policies and programmes on UGG for Iskandar Malaysia; and how to ensure that these are complied with by all
- 3 How to coordinate and facilitate awareness programmes, activities and capacity-building.
- 4 Develop, implement and manage strategic environmental programmes emphasizing on Low Carbon Society Blueprint's 12 Actions

Issues & Challenges – For the success of the UGG Study

Governance Structure – coordination of policies

- Close collaboration between all agencies

Public awareness & direct involvement

- Awareness, involvement and readiness in the implementation of UGG Iskandar Malaysia; e.g. Eco-Life Challenge for schools

Monitoring and review

- Programme implementation will need regular monitoring and review to ensure effectiveness and acceptance via UTM LCS Centre & IRDA's Environment Division

Visible evidence & creating champions of UGG

- Public acceptance of a high sustainability Iskandar Malaysia and Green Growth – implementation of programmes
