

# VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Import Vehicles

Campaign No.	Gai-2153	Date	March / 17 ,2015
Manufacturer	BOMAG GmbH (Japanese importer: KOBELCO CONSTRUCTION MACHINERY CO., LTD.)		
Description of Defect	In a push button-type parking brake switch and emergency stop switch, since processing by the manufacturing control of the switch concerned is unsuitable, there is what has a few clearance between the slide portions inside a switch. Therefore, when outdoor air temperature is low, resistance of a slide portion increases because the switch body concerned contracts due to a temperature fall, and, in the worst case, there is a possibility that release of a parking brake function or emergency stop function may become impossible.		

Type	Commercial name	Model year recalled	Number of Vehicles
—	BW115AC-3	2013 - 2014	36
