

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Import Vehicle

| | | | |
|-----------------------|--|------|------------------|
| CAMPAIGN No. | 3668 | DATE | November 4, 2015 |
| MANUFACTURER | KOBELCO CRANES CO.,LTD | | |
| DESCRIPTION OF DEFECT | <p>Regarding the air-conditioner which is equipped on the wheel crane RK250-8, the shape of the mounting bracket for the compressor is improper. So a part of the mounting bracket would be received concentrated load by vibrating of the compressor. And crack(s) would occur.</p> <p>If in case it keeps using it with the crack, the crack would be expanded, and the mounting bracket would be broken. Then it might be a cause of dropping down of the compressor.</p> | | |
