

## VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic / Import Vehicles

CAMPAIGN No.	Gai-2447	DATE	2017/2/23
MANUFACTURE	Daimler AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd. )		
DESCRIPTION OF DEFECT	On certain G-Class vehicles (463 platform) with 6-cylinder Diesel engine OM642, extreme driving conditions with high load of the engine could lead to too high temperatures of the engine oil. Should the engine oil be repeatedly exposed to too high temperatures, its flow ability could be reduced. Depending on the driving conditions the cooling and lubrication of the engine by the engine oil could not be sufficient.
