

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic / Import Vehicles

CAMPAIGN No.	Gai-2610	DATE	2018/2/28
MANUFACTURE	Daimler AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd.)		
DESCRIPTION OF DEFECT	On certain GLE, GLS (166 platform) vehicles the bulkhead insulation might have been manufactured outside specifications and might show surplus foam that could overlap in the lower area of the windshield. The surplus foam might cover the VIN-label behind the windshield. Furthermore the overlap could affect the lower windshield bonding. If the windshield bonding is affected on the passenger side, in case of a head-on collision with an activation of the passenger airbag, the windshield might not be able to support the airbag as intended. As a consequence, the restraint effect of the passenger airbag could be impaired, potentially increasing the risk of injury for the front passenger.		

TYPE	COMMERCIAL NAME	MODEL YEAR RECALLED	NUMBER OF VEHICLE
CBA-166064	Mercedes-AMG GLE43 4MATIC Coupe	2016	10
CBA-166074	Mercedes-AMG GLE63 4MATIC Coupe	2016	5
