|-----------------------|--|------|-------------|
| CAMPAIGN No.          | 4226   | DATE | Mar.30 2018 |
| MANUFACTURER          | KATO WORKS CO.,LTD.  |      |             |
| DESCRIPTION OF DEFECT | For working device of the street sweepers, there is a possibility of interference between the gutter brush and the after-treatment device when you stow the brush with a relatively bigger angle than the specified since the range of motion for the right-hand side gutter brush has been incorrectly set up, therefore, it might have the after-treatment device worn by the rotating brush. If you continue to use the equipment with the same condition, you might have exhaust gas leaked from the device. |      |             |

| TYPE             | COMMERCIAL NAME | MODEL YEAR RECALLED | NUMBER OF VEHICLE | Note |   |
