

Vehicle Safety/Pollution Recall Campaign in Japan

Import Vehicles

Campaign No.	Gai – 2662	Date	May 23, 2018
Manufacturer	Jaguar Land Rover Limited (Japanese Importer : Jaguar Land Rover Japan Limited)		
Description of defect	<p>Enhanced visibility requirements are required on certain vehicles in Japan to comply with Japanese Automobile Type Approval regulations. Jaguar Land Rover vehicles employ a camera system to meet these prescribed visibility requirements.</p> <p>It has been identified on Range Rover Velar 2018MY vehicles that the surround camera system, used to meet the requirements of TR AIS 44, do not operate when they should. The Car Configuration settings for this function are not set for the Japanese market so preventing the automatic image from being displayed.</p> <p>On starting the affected Range Rover Velar vehicles, the automatic display function will not show the required camera views on the front centre mounted touchscreen and as such will not comply with the Japanese Automobile Type Approval requirements of TR AIS 44.</p>
