

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Import Vehicles

CAMPAIGN No.	Gai-2670	DATE	May 31 2018
MANUFACTURE	FCA US LLC (Japanese Importer : Fiat Chrysler Automobiles Japan Ltd.)		
DESCRIPTION OF DEFECT	<p>The alternator diodes on the vehicles concerned may experience a rapid failure. Depending on the alternator failure, the driver will have limited or no detection of the alternator failing, which can result in vehicle shutdown while driving and/or an under hood electrical fire.</p> <p>The root cause was determined to be thermal fatigue in the silicon diode due to a combination of high operating temperatures and cyclical system load conditions, induced by the Electric Hydraulic Power Steering (“EHPS”) and else.</p>
