

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Import Vehicles

CAMPAIGN No.	Gai-2738	DATE	2018/10/16
MANUFACTURE	Daimler AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd.)		
DESCRIPTION OF DEFECT	On certain S-Class (222 platform) AMG and S-Class Coupe (217 platform) AMG vehicles, certain parameters of the Active Lane Keeping Assist within the software of the multipurpose camera might not meet specification. Subsequently, the Active Lane Keeping Assist might not initiate a brake intervention in case of an unwanted lane change at speeds above 105 km/h. In this case the crash prevention functionality of the assistant system might be reduced. The driver would still be warned against unwanted lane changes by steering wheel vibrations. At speeds below 105 km/h the assistant system performs as designed.
