

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

CAMPAIGN No.	4 3 9 3	DATE	Dec. 4. 2018
MANUFACTURER	SHINMAYWA INDUSTRIES, LTD		
DESCRIPTION OF DEFECT	Some of light duty dump trucks have too small space between stay of hydraulic hose for tipping operation and rear brake pipe, and they can contact each other while driving. Therefore, using the vehicle without countermeasure, rear brake pipe can be damaged. At the worst case, and braking force can drop due to leak of break fluid caused by the damage.		

TYPE	COMMERCIAL NAME	MODEL YEAR RECALLED	NUMBER OF VEHICLE
