

CHILD RESTRAINT SYSTEM SAFETY RECALL CAMPAING IN JAPAN

Domestic / Import Items

CAMPAING No.	S o u - 1 2	DATE	28-Jan-2019
MANUFACTURER	CARMATE MFG. CO., LTD.		
DESCRIPTION OF DEFECT	<p>The shape of the shoulder belt hole of the child seat and the operation structure of the shoulder belt hanger are inappropriate.</p> <p>When adjusting the length of the shoulder belt, pulling out only one side belt strongly may cause a loop portion of the shoulder belt to bend.</p> <p>Therefore, if the operation is repeatedly performed, in the worst case, the shoulder belt may come off the shoulder belt hanger and the occupant may not be sufficiently restrained.</p>
