

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

CAMPAIGN No.	4491	DATE	Apr.24.2019
MANUFACTURER	TOYOTA		
DESCRIPTION OF DEFECT	In the middle door open/close system of the regular-service bus (one-man bus), due to an improper control of the door opening and closing operation, there is a possibility that the system could not detect open/close condition of the door correctly if the specific door operation is conducted with the door opened. In this condition, the function which prevents the vehicle from moving with the door opened could not be activated causing the vehicle to start moving.
