

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic ~~Import Vehicles~~

CAMPAIGN No.	Gai-2858	DATE	2019/5/30
MANUFACTURE	Daimler AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd.)		
DESCRIPTION OF DEFECT	On certain right hand driven C-class vehicles (205 platform) with hybrid drive powertrain an electrical wiring harness in the engine compartment might have been routed outside specifications. This might lead to a chafing of the wiring harness at a brace strut while driving. In this case an electrical short circuit between the wiring harness and the brace strut cannot be ruled out. This might lead to a risk of fire.
