

# VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

|                       |   |      |               |
|-----------------------|---|------|---------------|
| CAMPAIGN No.          | 4519  | DATE | June 20, 2019 |
| MANUFACTURER          | HONDA MOTOR CO., LTD.   |      |               |
| DESCRIPTION OF DEFECT | <p>As concerns electric parking brake, there were errors in setting of the applying amount of grease for the lubrication of internal gears of the electric parking brake actuator and the capacity of the grease sump. Through repeatedly driving and stopping on uphill/downhill roads, oil contained in the grease collected in the sump can enter the motor and get mixed with wear debris in the motor, thereby generating conductive contaminants. If the vehicle continues in service in this condition, such contaminants could get on the motor terminal and short-circuit the motor, causing the warning light to come on and rendering the parking brake inoperative or unreleasable.</p> |      |               |

| TYPE    | COMMERCIAL NAME | MODEL YEAR RECALLED | NUMBER OF VEHICLE |
|---------|-----------------|---------------------|-------------------|
| DBA-JF1 | 「N-BOX SLASH」   | 2014~2018           | 36,939            |
| DBA-JF2 |                 | 2014~2018           | 6,480             |
|         |                 | TOTAL               | 43,419            |
