

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

|                       |  |      |             |
|-----------------------|--|------|-------------|
| CAMPAIGN No.          | 4596   | DATE | Oct.30.2019 |
| MANUFACTURER          | TOYOTA   |      |             |
| DESCRIPTION OF DEFECT | In the engine control computer of the subject vehicles, due to improper programming of charging control, there is a possibility that, when the long period of idling is frequently repeated, a battery could be deteriorated abnormally. If this were to occur, the engine will not re-start after an idling stop. |      |             |

| TYPE       | COMMERCIAL NAME         | MODEL YEAR RECALLED | NUMBER OF VEHICLE | NOTE                                  |
