

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic / ~~Import~~ Vehicles

CAMPAIGN No.	4593	DATE	Dec. 18. 2019
MANUFACTURER	NIPPON FRUEHAUF COMPANY LIMITED		
DESCRIPTION OF DEFECT	In the rear entry preventing device, since the strength of the cross member end mounting portion is insufficient, the mounting portion may be cracked due to running vibration or the like. For this reason, if the use is continued as it is, the crack progresses, and there is a risk that the stay side bumper portion will be loose or generate abnormal noise.
