

# Examples of Dangerous Goods by Air Transportation

Last updated: February, 2021

When you travel by airplane, roughly speaking, baggage which you carry is divided into two types. One is carry-on baggage and the other is checked baggage.

'Carry-on baggage' is the baggage that you have or carry on the cabin of an aircraft. 'Checked baggage' is the baggage like a suitcase that you would check at the airline's counter before your boarding.

Under the Civil Aeronautics Act in Japan, Dangerous goods are defined as explosive materials, flammable items and any other goods that are liable to injure persons or to damage objects. The Act prohibits the transport of those dangerous goods by air and the carriage of such goods on board as carry-on baggage. However, among such goods, there are certain goods which you may be allowed to carry as carry-on baggage and/or checked baggage in case they meet certain quantitative limitations. Besides, some sharp objects such as knives may not be allowed to take on board as carry-on baggage for the reason that it may be used as weapons for hijacking and terrorist activities.

The list below picks up items that passengers often inquire of airlines whether they should carry them on the cabin or check them in at the counter. Please check this list when you pack up your belongings on your travel.

At airports, airlines perform security check before your boarding for your safe travel. Please inform airline staff at the counter or the security checkpoint in case you carry dangerous goods.

Please pay attention to the following:

1. In general
  - The list below is based on the Civil Aeronautics Act, security-related rules provided by the International Civil Aviation Organization (ICAO), and some other related regulations .
  - In spite of the item listed, there are cases of additional rules by airlines, so it is recommended to ask airlines whether your concerned item is categorized as a dangerous good and about other details.
  - Please note that other countries may have additional rules and restrictions on dangerous goods in international flights. You should check with your airline for more information.
  - The item permitted as carry-on or checked baggage are for personal use only.
2. The items that can be used as weapons for hijacking and terrorist activities
  - This restriction is also applied to the tools, sporting goods and self defense items that can be used as weapons for hijacking and terrorist activities.
  - The imitations and similarities of each dangerous good are included.
  - It may be determined that even the carriage of an item which is permitted on the list would be prohibited because the item is categorized as a weapon due to its characteristics, such as materials, strength and shape.
  - It may be determined that the carriage of an item which is not on the list would be prohibited because the item is categorized as a weapon due to its characteristics, such as the materials, strength and shape.
  - Please note that the Act for Controlling the Possession of Firearms or Swords and Other Such Weapons and other laws may prohibit you from possessing certain items.
3. Dangerous goods except for the above items
  - Even an item listed below, it may be determined that you would be allowed to bring it in case the Safety Data Sheets (SDS) or other documents issued by manufacturers characterize it as non dangerous good.
  - Even if Liquids, Aerosols and Gels (LAGs) are permitted to carry as carry-on baggage on the list, an additional restriction is applied to international flights.
  - Please check the following website for more information on Security Control for Screening Liquids, Aerosols and Gels carried on international passenger flights departing from airports in Japan.  
[http://www.mlit.go.jp/koku/15\\_bf\\_000006.html](http://www.mlit.go.jp/koku/15_bf_000006.html)
  - Even if they are categorized as permitted items on the list, it may be determined that you would not be allowed to carry them due to safety/security issues.
  - It may be determined that you would not be allowed to carry items which are not on the list due to safety/security issues.
4. Others
  - The list will be updated as necessary depending on operational circumstances.

Toiletry Articles <Non-radioactive material articles including flammable liquid and compressed gas (spray can)>						
Item(s)	Carry-on	Checked	Quantity		Notes	LAGs (Liquids, Aerosols and Gels) Restriction
			Quantity Per Container	Quantity Per Person		
Hair-care goods : Hair sprays, Hair tonic, Hair restorer (Liquids, Sprays), Hair Color, Hair dye, Bleach Skin-care goods : Skin lotion, Cleansing foam, Sunscreen Shaving foam Nail-care goods : Manicure, Nail-polish remover, Nail art articles Bath salts, Bath Oil Mouth care goods : Mouthwash Perfumes, Cologne Aroma oil Antiperspirant sprays, Deodorant body sprays, Refrigerant sprays (They include the sprays for the clothes) Air freshener, Disinfectant sprays, Anti-wrinkle sprays (for a body, clothes, a room) * Including alcohol-based products Household detergent (other than a bleach, an antimolde) Cleaning solution (for contact lenses, false teeth, a wig, a jewel, eyeglasses, a shave)	○	○	At or less than 0.5L or 0.5Kg	At or less than 2L or 2Kg  Note: The above quantity per person is the total amount of toiletry articles, medicines, and sprays	The toiletry articles are the ones used for the body or the personal appearance. With regard to the gas-filled sprayer, it is required to have a cap or to prevent the accidental leakage by other appropriate measures such as a measure to prevent someone from mistakenly pushing the injection valve.  Note : With regards to the bleach and the ant mold, if it is labeled "This product contains chlorine" or "Do not mix, Hazardous." etc., it is not allowed to carry in a carry-on baggage or a checked baggage.  Note : "Spray" in the toiletry articles means a gas-filled aerosol sprayer or a liquid-filled mist sprayer.	<a href="#">Links</a>
Medicines <Non-radioactive material articles including flammable liquid and compressed gas (spray can)>						
Item(s)	Carry-on	Checked	Quantity		Notes	LAGs Restriction
			Quantity Per Container	Quantity Per Person		
-Antiphlogistic analgetic (Liquids, Sprays) -Anti-itch drug (Liquids, Sprays), Bug repellent (Liquids, Sprays) -Disinfectants -Antiseptics (Liquids, Sprays) * Including alcohol-based products	○	○	At or less than 0.5L or 0.5Kg	At or less than 2L or 2Kg  Note: The above quantity per person is the total amount of toiletry articles, medicines, and sprays.	Release valves on aerosols must be protected by a cap or other suitable means to prevent inadvertent release of the contents	<a href="#">Links</a>

**Sprays (Except for ①、②)**

Item(s)	Carry-on	Checked	Quantity		Notes	LAGs Restriction
			Quantity Per Container	Quantity Per Person		
Sprays without using flammable gases or toxic gases with no subsidiary hazard.	○	○	At or Less than 0.5L or 0.5Kg	At or less than 2L or 2Kg Note: The above quantity per person is the total amount of toiletry articles, medicines, and sprays.	It is also required to have a cap or to prevent the accidental leakage by other appropriate measures such as a measure to prevent someone from mistakenly pushing the injection valve.	<a href="#">Links</a>

**Liquid Articles**

Item(s)	Carry-on	Checked	Quantity		Notes	LAGs Restriction
			Quantity Per Container	Quantity Per Person		
Alcoholic Beverages		○	○		Non-dangerous goods It shall be placed in a retail container. An alcoholic beverage, which is poured into a hip flask from a retail container, is not allowed. * See Toiletry Articles' or Medicines' section for alcohol-based cleaning products or disinfectants.	<a href="#">Links</a>
		○	○	5L	It shall be placed in a retail container. An alcoholic beverage, which is poured into a hip flask from a retail container, is not allowed. * See Toiletry Articles' or Medicines' section for alcohol-based cleaning products or disinfectants.	<a href="#">Links</a>
		×	×		* See Toiletry Articles' or Medicines' section for alcohol-based cleaning products or disinfectants.	
Musical instrument oil (lubricating oil)	○	○				<a href="#">Links</a>
Adhesives	×	×			Substances/Items in the form of liquid with an ignition point more than 60 degrees C (60°C) are allowed.	
Paint	×	×				
Bleach, Heavy-duty ant mold	×	×				<a href="#">Links</a>
Pesticide	×	×				
Agricultural Chemicals	×	×				
Hydrochloric Acid	×	×				
Gasoline	×	×				
Kerosene, Gas oil	×	×				
Thinner	×	×				
Benzine	×	×				
Varnish	×	×				
Ethanol	×	×			* See Toiletry Articles' or Medicines' section for alcohol-based cleaning products or disinfectants.	
Formalin	×	×				
Chloroform	×	×				
Arsenic	×	×				

**Batteries a) Batteries used for a portable electronic device**

Item(s)	Carry-on	Checked	Quantity		Notes	LAGs Restriction	
			Quantity Per Container	Quantity Per Person			
Dry Batteries	○	○			Non-dangerous goods		
Nickel Metal Hydride (NiMH) Batteries	○	○			Non-dangerous goods		
Nickel Cadmium (NiCad) Batteries	○	○			Non-dangerous goods		
Lithium Metal Batteries	Electronic devices containing the batteries	○	○			If devices are carried in checked baggage, * measures must be taken to prevent unintentional activation and to protect the devices from damage; and *the devices must be completely switched off(not in sleep or hibernation mode);	
		×	×				
	Portable medical electronic devices(the body) (AED, nebulizer, CPAP, etc.) (including articles the primary purpose of which is to provide power to another device)	○	○			If devices are carried in checked baggage, * measures must be taken to prevent unintentional activation and to protect the devices from damage; and *the devices must be completely switched off(not in sleep or hibernation mode);	
		×	×				
	Spare batteries for the above electronic devices	○	×		2	It is required to be prevented from causing short circuits.	
		○	×		Note: The above quantity per person is the total amount of Lithium Metal and Lithium Ion Batteries.	It is required to be prevented from causing short circuits.	
		×	×				
Baggage	○	○					
	○	×			The baggage must be carried carry-on baggage unless the batteries are removed from the baggage, in which case the batteries must be carried in accordance with rules of spare batteries.		

Lithium Ion Batteries (including lithium ion polymer batteries)	Electronic devices containing the batteries (AED, nebulizer, CPAP, etc.)	A watt-hour rating of not more than 160Wh	○	○		If devices are carried in checked baggage, measures must be taken to prevent unintentional activation and to protect the devices from damage; and the devices must be completely switched off(not in sleep or hibernation mode);※For the hair curler or hair iron, see the "Other items/hair curler, hair iron" section below.	
		A watt-hour rating of more than 160Wh	×	×			
	Spare batteries for the above electronic devices (including articles the primary purpose of which is to provide power to another device)	A watt-hour rating of not more than 100Wh	○	×		2	It is required to be prevented from causing short circuits.
		A watt-hour rating of 100Wh but not exceeding 160Wh	○	×			It is required to be prevented from causing short circuits.
		A watt-hour rating of more than 160Wh	×	×			
	Baggage	A lithium content of not more than 2.7Wh	○	○			
A lithium content of more than 2.7Wh		○	×			The baggage must be carried carry-on baggage unless the batteries are removed from the baggage, in which case the batteries must be carried in accordance with rules of spare batteries.	
Fuel cells	Electronic devices containing the batteries		○	×			
	Spare fuel cartridges for the above devices(containing flammable liquids, corrosive substances, liquefied flammable gas, hydrogen absorbing alloys, or substances that generate inflammable gas through interaction with water)		○	○		2	It is not allowed to refuel fuel cells except for a refuel with dedicated spare fuel cartridges.
Spillable Batteries (Lead accumulator, etc.)	Portable electronic devices(the body) containing a leak proof lead accumulator	a voltage of not more than 12 V and a watt-hour rating of not more than 100Wh	○	○			
		a voltage of more than 12 V or a watt-hour rating of more than 100Wh	×	×			
	Spare batteries for the above portable electronic devices	a voltage of not more than 12 V and a watt-hour rating of not more than 100Wh	○	○		2	It is required to be prevented from causing short circuits.
		a voltage of more than 12 V or a watt-hour rating of more than 100Wh	×	×			
Non-leak proof lead accumulator		×	×				

**Batteries b) Batteries used for a battery-powered wheelchairs or other similar mobility aids** [For details, refer to here.](#)

Batteries used for a battery-powered wheelchairs or other similar mobility aids  Note: Depending on a size of a battery-powered wheelchairs, it may not be allowed for carriage. Therefore, please check with your airline before boarding by telephone, etc.	Lithium Ion Batteries (including lithium ion polymer batteries)	The body	×	○			The removed battery is required to be prevented from causing short circuits and to be placed in carry-on baggage.	
		Spare batteries(a watt-hour rating of not more than 160Wh)	○	×		2	It is required to be prevented from causing short circuits.	
		Spare batteries(a watt-hour rating of not more than 300Wh)	○	×		1	It is required to be prevented from causing short circuits.	
	Spillable or Non spillable Batteries (Lead accumulator, etc.)	Spare batteries(a watt-hour rating of more than 300Wh)	×	×				
		The body	×	○				The removed battery is required to be prevented from causing short circuits and to be placed in checked baggage.
		Spare batteries	×	○		1 (non-spillable batteries)		

**Lighters and Matches**

Item(s)	Carry-on	Checked	Quantity		Notes	LAGs Restriction
			Quantity Per Container	Quantity Per Person		
For smoking	Oil lighters	Without absorbent cottons (Tank lighter)	×	×	1(Small and portable type only)	It is required to be on the person in the cabin. If a cigarette lighter is powered by lithium batteries, each batteries, must not exceed the following for lithium metal batteries, a lithium content of 2g for lithium ion batteries, a Watt-hour rating of 100wh the devices and/or batteries must not be recharged on board aircraft It is required to be prevented from causing short circuits. measures must be taken to prevent unintentional activation of the heating element while on board the aircraft.
		With absorbent cottons				
	Liquefied gas lighters	Disposable, Refillable type	○	×		
	Electronic lighters	Electric heating type, Plasma type				
	Safety matches					
	Strike anywhere matches		×	×		
Matches (not for smoking)		×	×			
Ignition device (not for smoking)	Disposable, Refillable type	×	×			
	Oil	×	×			
Lighter fuel	Gas	×	×			
	Oil	×	×			

**Oxygen Cylinders and Gases**

Item(s)		Carry-on	Checked	Quantity		Notes	LAGs Restriction	
				Quantity Per Container	Quantity Per Person			
Oxygen cylinders, Air cylinders	For medical use	○	○	5kg		In case where the small container is equipped with a valve and a regulator, a measure is required to be taken to prevent an unanticipated actuation.		
	Other than those above	×	×			Cylinders without gases are allowed for a carriage.		
Gas cylinders	For mechanical limbs	○	○					
	Self-inflating life jackets with gas cartridges (For marine salvage, motorcycle, etc.) (Intended to be worn by a person.)	Fitted into a life jacket	○	○		2 jacket (2 cylinders)	It must be packed in such a manner that it cannot be accidentally activated.	
		Spare cylinders	○	○		2 cylinders per jacket	*In addition to the 2 cylinders fitted into the jacket, 2 more cylinders per jacket are permitted as spare cylinders to carry in a carry-on baggage or a checked baggage. *a carriage of only spare cylinders (without the life jacket) is not permitted as a cabin baggage or a checked baggage.	
	Small gas cylinders other than the cylinders used for the above self-inflating life jackets, not using flammable gases or toxic gases (Cylinders contained in beauty instruments, soda producing devices, tire pumps for bicycles, beer servers, etc.)		○	○	50ml	4	Note: For carbon dioxide, a gas cartridge with a water capacity of 50ml is equivalent to a 28g cartridge.	
		×	×	50ml				
Gas spring (for wheelchair use)		○	○			※Because some airlines may refuse to carry an electric wheelchair with gas spring onto cabin due to its size, please confirm it in advance to your airline.		
Portable gas cooking stoves and Gas burners for a camp without gas cylinders (the body)		○	○			Cylinders without gases are allowed for a carriage.		
Gas cylinders of portable gas cooking stoves and gas burners		×	×					
Fire extinguishers		×	×					
Helium Gas		×	×					

**Explosives**

Item(s)		Carry-on	Checked	Quantity		Notes	LAGs Restriction
				Quantity Per Container	Quantity Per Person		
Ammunitions		×	○	Gross Weight 5kg (Package include)		The container needs to be strong enough and must have lock with it. And it is not allowed to put ammunitions belonging to others in your baggage.	
Bullet Key Rings, Necklaces (Those items must be processed as key rings or accessories.)		○	○			Non-dangerous goods	
Fireworks		×	×				
Crackers		×	×				
Smoke Markers		×	×				

**Other Items**

Item(s)		Carry-on	Checked	Quantity		Notes	LAGs Restriction
				Quantity Per Container	Quantity Per Person		
Hair curlers, Curling irons	Socket type (Powered by a power bank)	○	○			Non-dangerous goods	
	Battery-operated (Lithium ion batteries) * A watt-hour rating of not more than 160Wh	×	×			Products are allowed to transport if the batteries are removed from the body. And the removed batteries and the spare batteries are permitted as carry-on baggage only as written in the Lithium Ion Batteries' section. These batteries are also required to be prevented from causing short circuits.	
	Battery-operated (Other than those above)	×	×			Products are allowed to transport if the batteries are removed from the body. And the removed batteries are required to be prevented from causing short circuits.	
	Gas type * Those items contain a hydrocarbon gas, and the safety cover must be securely fitted over the heating part.	○	○		1	With regard to an international flight, it must be easily placed in a transparent resalable plastic bag of a maximum capacity not exceeding 1 L by the LAGs restriction. Spare gas cartridges containing a hydrocarbon gas for filling are not allowed to take into the aircraft.	<a href="#">Links</a>
Spare Gas Cartridges (Hair Curlers, Curling Irons)		×	×				
Soldering Irons, Glue gun	Socket type (Powered by a power bank)	○	○			Non-dangerous goods (Those items which do not have a sharp point.)	
	Battery-operated (Lithium ion batteries) * A watt-hour rating of not more than 160Wh	×	×			Those items which do not have a sharp point. Products are allowed to transport if the batteries are removed from the body. And the removed batteries and the spare batteries are permitted as carry-on baggage only as written in the Lithium Ion Batteries' section. These batteries are also required to be prevented from causing short circuits.	
	Other than those above	×	×			Those items which do not have a sharp point. Products are allowed to transport if the battery are removed from the body. And the removed batteries are also required to be prevented from causing short circuits.	
	Gas type * Containing a hydrocarbon gas	×	×				

Diving Lamps	Lithium ion batteries * A watt-hour rating of not more than 160Wh	○	○			The batteries must be removed from the body and the spare batteries are permitted as carry-on baggage only as written in the Lithium Ion Batteries' section. And the removed batteries are also required to be prevented from causing short circuits.
	Other than those above	○	○			A part which produces heat and the battery must be separated, and the batteries are also required to be prevented from causing short circuits.
Wax, wax remover for ski or snow board	Solid	○	○			
	Liquid, Paste	×	×			Substances/Items in the form of liquid with an ignition point more than 60 degrees C (60°C) are allowed.
	Gas(Spray)	※See the "Sprays" section above				
Avalanche rescue backpack	In cases where an avalanche rescue backpack contains the explosive substances, the content is required to be less than and equal to 200mg. In cases where an avalanche rescue backpack contains compressed gases, it is required not to use inflammable gases or toxic gases.	○	○		1	It is required to be packed to prevent an accident and the airbags within the backpack must be fitted with pressure relief valves. It is required to be placed in a baggage.
Dry Ice	Dry ice to refrigerate Non dangerous goods such as fresh food	○	○		2.5kg	Frame of the container need to be able to release carbon dioxide
	Other than those above	×	×			
Charcoal and activated charcoal	For combustion	×	×			Products that have been proved not to be dangerous goods by UN test are allowed to transport.
	For purification	○	○			Processed product only.
Luminous Paint	Used for the face of watches	○	○			
	Other than those above	×	×			
Mercury Barometer and Mercury Thermometer		○	×			The item is required to be placed in the container having enough strength and linings or pouches which are impervious to mercury. It is required to be placed in a carry-on baggage. It is limited to only the case that the employee who belongs to Japan Meteorological Agency or equivalent carries it.
Medical Mercury Thermometer		×	○		1	Only the thermometer placed in the protective case for personal use is allowed.
Magnets	For personal use	○	○			Non-dangerous goods
	For business use (large size)	×	×			
Organ, Tissue, Cell etc.	For transplantation	○	○			
	For research, or testing	×	×			Those items except for "Infectious Substances" are permitted to transport.
Pacemakers and other devices implanted in the body or fitted externally which is activated by the battery using radioactive materials or lithium		○	×			
Balls intended for use in sports		○	○			
Heating Pad (Oil type)		×	×			
Self Heating Meals or Beverage (The container with Self-Heating agent)		×	×			
Insecticide (Smoke type)		×	×			
Mercury		×	×			
Isotope		×	×			
Internal-combustion engine or fuel cell device (engine, generator, etc.)		×	×			*The item can be transported as a checked baggage when it meets all the following requirements. •the fuel tank of the item has never contained any fuel or the fuel tank has been flushed and purged of vapours and adequate measures taken to nullify the hazard. •the entire fuel system of the item has no free liquid. •all fuel lines are sealed or capped.
Battery-powered portable electronic smoking devices (e.g. e-cigarettes, e-cigs, e-cigars, e-pipes, personal vaporizers, electronic nicotine delivery systems)		○	×			carried by passengers or crew for personal use. spare batteries must be individually protected so as to prevent short circuits. recharging of the devices and/or batteries on board the aircraft is not permitted.
Instant ice packs		×	×			Products that do not contain hazardous substances such as ammonium nitrate are allowed to transport.
Air disinfectant products		×	×			Products that do not contain/generate hazardous substances such as sodium chlorite are allowed to transport.

**【Reference】**

- **高温に注意** A product with this signage means including non-flammable gas
- **火気と高温に注意** A product with this signage means including flammable gas

# Weapons

Swords					
Swords (Japanese Swords, Chinese Swords, Western Swords etc.)	x	○			Plastic toys, etc which are not for weapons are also permitted as carry-on baggage.
Dagger	x	○			
Switchblade Knife	x	○			
Knives					
Knives	x	○			Round-bladed and non-dangerous knives like butter knives are permitted as carry-on baggage.
Oyster Knives	x	○			Those items are not permitted as carry-on baggage because of the appearance by which anyone may have trepidation.
Paper Knives	x	○			Round-bladed and non-dangerous knives are permitted as carry-on baggage.
Scalpel	x	○			Those items for any kind of medical treatment (surgery, ophthalmology, dentistry etc.) aren't permitted as carry-on baggage.
Razors	x	○			Safety razors or cosmetic small razors for eyebrows are permitted as carry-on baggage. The electric razors (electric shavers) are permitted as carry-on baggage.
Scissors	x	○			Those items that doesn't have a sharp point and also the blade's length don't exceed 6cm are permitted as carry-on baggage. Cosmetic small scissors for trimming eyebrow, nose hair and so on and scissors in the sawing set are also permitted as carry-on baggage.
Scissors for infant	x	○			Those items that looks like obviously toy scissors are permitted as carry-on baggage.
All-purpose knife (e.g. Swiss Army knife)	x	○			Even if the component does not include dangerous items all-purpose knives are not permitted as carry-on baggage because of the appearance by which anyone may have trepidation.
Cutters					
Box Cutters	x	○			"NT cutter", etc.
Cigar Cutters (V-cut Type)	x	○			Those items which do not have sharp point and less than 6cm are permitted as carry-on baggage.
Cigar Cutters (Straight cut type)	x	○			Those items that cannot separate the blades from the bodies are permitted as carry-on baggage.
Seatbelt Cutters	x	○			Those items that cannot separate the blades from the bodies are permitted as carry-on baggage.
Food Cutters	x	○			Those items that cannot separate the blades from the bodies are permitted as carry-on baggage.
Apple Cutters	x	○			Those items that cannot separate the blades from the bodies are permitted as carry-on baggage.
Pizza Cutters	x	○			
Guns and Firearms					
Guns	x	○			
Air Guns	x	○			
BB Guns	x	○			
Starter Pistols	x	○			
Plastic Toy Guns for infant	x	○			Those items that are not dangerous obviously by considering the strength and/or shape of the material are permitted as carry-on baggage.
Parts of Guns and Firearms	x	○			Because the parts might be separately brought and assembled by several people in an aircraft, those items are not permitted as carry-on baggage.
Shooting Articles					
Slingshots	x	○			Those items that looks like obviously toys are permitted as carry-on baggage.
Bow and Arrow	x	○			
Bow guns	x	○			
Pistol Grip Screwdrivers	x	○			
Martial Arts and Self Defense Items					
Nightsticks	x	○			
Nunchaku (KARATE Sticks)	x	○			
Short Metal Truncheon	x	○			Those items that looks like obviously toy, and can not be used for weapons are permitted as carry-on baggage.
Brass Knuckles	x	○			
Sporting Goods, Exercise Tools, Nursing Care Items etc.					
Golf Clubs	x	○			Only golf club heads are permitted in carry-on baggage. Those plastic items that look like toys and so on and can not be used for weapons are permitted as carry-on baggage.
Golf Swing Training Equipments	x	○			
Baseball Bats	x	○			Those plastic items that look like toys and so on and can not be used for weapons are permitted as carry-on baggage.
Ice Skates Shoes	x	○			
Gate ball Sticks, Cricket Bats	x	○			
Hockey Sticks	x	○			
Lacrosse Sticks	x	○			
Boomerangs	x	○			Those items that don't have metallic blade are permitted as carry-on baggage.
Batons	x	○			Those items that is for relay or baton towering and don't exceed 60cm, are permitted as carry-on baggage.
Sectional Putters	x	○			
Pool Cues	x	○			
Skies/Snowboards	x	○			Short skies that don't exceed 60cm are permitted as carry-on baggage.
Ski Sticks/Poles	x	○			Those items that the folding size don't exceed 60cm but the sharp with metallic point (drill shape), are permitted as carry-on baggage. Those items that don't have sharp with metallic point (drill shape) and are used as sticks by physically handicapped people themselves are permitted as carry-on baggage, and may exceed 60cm.

Mountain-climbing Poles	x	o			Those items that the folding size don't exceed 60cm but the sharp with metallic point (drill shape), are permitted as carry-on baggage. Those items that don't have sharp with metallic point (drill shape) and are used as sticks by physically handicapped people themselves are permitted as carry-on baggage, and may exceed 60cm.
Pilgrim's Stick	x	o			
Climbing Spikes	x	o			
Tennis Racket	o	o			
Canes	o	o			Those items used by physically handicapped people themselves are permitted as carry-on baggage, and may exceed 60 cm.
Splints, Artificial Arms and Legs	o	o			Those items used by physically handicapped people themselves are permitted as carry-on baggage, and may exceed 60 cm.
<b>Sticks</b>					
Iron Bars	x	o			
Wooden Swords	x	o			
Bamboo Swords	x	o			
Tripods	x	o			Those items that the folding size don't exceed 60cm are permitted as carry-on baggage.
Monopods	x	o			Those items that the folding size don't exceed 60cm are permitted as carry-on baggage.
Insect Collecting or Fishing Nets	x	o			Those items that the folding size don't exceed 60cm are permitted as carry-on baggage. Those wooden or plastic items that are considered they can not be used for weapons are permitted as carry-on baggage.
Massage Sticks	x	o			Those items that don't exceed 60cm are permitted as carry-on baggage.
Rolling Pins (includes Pestles)	x	o			Those items that don't exceed 60cm are permitted as carry-on baggage.
Beach Parasols	x	o			Those items that don't exceed 60cm are permitted as carry-on baggage.
Fishing Rods	x	o			Those items that the folding size don't exceed 60cm are permitted as carry-on baggage. Those wooden or plastic items that are considered they can not be used for weapons are permitted as carry-on baggage.
Flag Poles	x	o			Those plastic items for escorting that the size exceed 60cm and don't have sharp point are permitted as carry-on baggage. Even if it doesn't exceed 60 cm, items with sharp point are not permitted.
<b>Tools</b>					
Carpenter Tools (Hammers)	x	o			
Carpenter Tools (Large Crowbars)	x	o			
Carpenter Tools (Drills)	x	o			
Tools (Screwdrivers)	x	o			Those items that the total length don't exceed 15cm and also the shaft's length don't exceed 6cm are permitted as carry-on baggage. (In case their grip and shaft can be separated, the length shall be measured in the state the grip and shaft is connected.)
Tools (Spanners)	x	o			Those items that don't exceed 15cm are permitted as carry-on baggage.
Tools (Wrenches)	x	o			Those items that don't exceed 15cm are permitted as carry-on baggage.
Tools (Crowbars)	x	o			Those items that don't exceed 15cm are permitted as carry-on baggage.
Tools (Portable Screwdrivers Set)	x	o			Those items that don't include ice picks or drill-shape are permitted as carry-on baggage.
Tools (Power Drivers)	x	o			
Tools (Power Saws)	x	o			
Tools (Blowtorches)	x	o			
Tools (Drills)	x	o			Including 100V power-operated, battery-operated, and rechargeable.
Wooden Hammer	x	o			Those items that don't exceed 15cm are permitted as carry-on baggage.
Stick File	x	o			Those items that don't exceed 15cm are permitted as carry-on baggage.
Vernier Calipers	o	o			
Drafting Compasses	o	o			
<b>Sharp Objects</b>					
Ice Picks	x	o			
Ice Axes	x	o			
Darts	x	o			Those items that don't have the sharp and metallic point (drill shape) are permitted as carry-on baggage.
Skewers, Tongs	x	o			
Okinawa Ornamental Hairpin	x	o			Those wooden or plastic items that are considered they can not be used for weapons are permitted as carry-on baggage.
Nails	x	o			Those items that don't exceed 6cm are permitted as carry-on baggage.
Hypodermic Needles	x	o			Those items used for medical treatment by doctor or nurse are permitted as carry-on baggage.
