

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

CAMPAIGN No.	5457	DATE	Feb.22 2024
MUNUFACTURER	Mitsubishi Fuso Truck and Bus Corporation		
DESCRIPTION OF DEFECT	<p>On some light-duty buses, the brake lamp switch is assembled with the push rod protrusion less than the specified value due to incorrect assembly instructions. As a result, the brake lamps may not turn on when the amount of depression of the brake pedal is small.</p> <p>In addition, if this occurs while the hill start assist device (EZGO) is activated, the ECU may incorrectly determine that the system is in an abnormal state, causing the collision damage mitigation brake (AEBS) and vehicle behavior stabilizing (ASR) systems to stop functioning and the warning lamp to turn on.</p>		

TYPE	COMMERCIAL NAME	MODEL YEAR RECALLED	NUMBER OF VEHICLE
2RG-BE740E	「FUSO ROSA」	2019～2023	420
