Pike conger cuisin

By Public Transport

Dining

Pike congors which grow up in Buzen sea, Yamakuni river with plenty of nutrition of Yabakei forest flows into, are good reputation for the taste. To eat in the best way, fishermen and chefs in Nakatsu made the way to cut small bone which is called 'Honegiri' about 400years ago. Honegiri is so delicate that 25times cuts in 1 inch without cutting skin and now the technique spreads all over Japan.

Best stone Bridge in Japan`Yabakei Bridge`

By Public Transport

Topics

Yabakei Bridge is a stone bridge which is constructed at 1923 and is registered to national important cultural property. It is the only stone bridge in Japan which is built in a beautiful series of eight arches. The length is 116-meter and this is the longest stone bridge in Japan. This bridge is also called the 'Dutch Bridge' because the technique for stone bridge in Naasaki applied to this bridge.
