

Outline of Global Mapping Seminar in Nairobi

1. Objectives: To learn policy and technical dimension of Global Map Development and application of Global Map data.
2. Date: 8 November 2004 – 11 November 2004
3. Venue:
Regional Centre for Mapping of Resources for Development (RCMRD)
Nairobi, Kenya
4. Organizers:
Ministry of Land, Infrastructure and Transport of JAPAN (MLIT)
International Steering Committee for Global Mapping (ISCGM)
Regional Centre for Mapping of Resources for Development (RCMRD)
5. Supporting Organizations:
Survey of Kenya (SOK),
Kenya Institute of Surveying and Mapping (KISM),
Japan International Cooperation Agency (JICA)
6. Expected Participants:
Technical Staff of African National Mapping Organizations that have participated in the Global Mapping Project and have an intention to develop Global Map Data. Since lectures will be given in English, participants is required to have enough English proficiency. It is being planned that 5 trainees will be invited to participate in the Global Mapping Seminar under GMPP.

(Note) In addition to the original 5 invitees of the Global Mapping Seminar, it is expected that about 12 trainees of Remote Sensing technical seminars to be held at Kenya Institute of Survey and Mapping (KISM) from 12 October to 5 November, will also join the whole term of the Global Mapping Seminar. Therefore the total number of trainee of the Global Mapping Seminar will be about 17
