

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic/Import Vehicles

CAMPAIGN No.	2552	DATE	June 10, 2010.
MANUFACTURER	YANMAR CONSTRUCTION EQUIPMENT CO. , LTD.		
DESCRIPTION OF DEFECT	<p>A retaining ring might be installed improperly on a drive shaft of hydraulic pump and come off at operation. The drive shaft could slide out of the correct position after the retaining ring coming off.</p> <p>As a result, oil leaks from the hydraulic pump, because the sealing surface on the shaft would detach from a oil seal. At worst, the machine can not travel at all.</p>		

TYPE	COMMERCIAL NAME	MODEL YEAR RECALLED	NUMBER OF VEHICLES
