

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

CAMPAIGN No.	2618	DATE	Oct.12 2010
MUNUFACTURER	Mitsubishi Fuso Truck and Bus Corporation		
DESCRIPTION OF DEFECT	On some large-size route buses, the construction of the vehicle speed sensor mounted on the automatic transmission is improper. The wiring in the sensor may break, and if this occurs, the speed will no longer be indicated on the speedometer nor be recorded by the tachograph.
