

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

CAMPAIGN No.	2793	DATE	July 27, 2011
MANUFACTURER	Shinmaywa Industries, Ltd		
DESCRIPTION OF DEFECT	Such damage to the unit cover of electric hydraulic oil pressurizer (power unit) mounted on the rear of trucks to power the loading equipment (Tail Gate Lifter), caused by hit of stones or pebbles while vehicle is in drive, may cause accumulation of snow melting agent, mud or rain to the magnet switch. If in case the magnet switch cover has been cracked or damaged, snow melting agent will penetrate into the inside of magnet switch, transformed to salt water by dissolving into rain water. By this reason, the magnet switch may short-circuit and eventually cause fire.
