VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic/Import Vehicles

CAMPAIGN No.	Gai-1772 DATE	4/Aug/2011			
MANUFACTURER	VOLVO CARS CORPORATION				
DESCRIPTION OF	Volvo Cars Corporation (VCC) has decided to carry out safety recall on a limited number of Volvo S80 vehicles (model year 2007), equipped with 6 cylinder engine. VCC has found that the power steering return line may burs due to incorrect routing of the power steering line. Should this condition occur, it may result in a sudden drainage or power steering oil and a loss of power steering assistance and in worst case scenario a fire in the engine compartment. Since this may appear suddenly and without an relevant warnings to the driver, this condition poses as unreasonable risk to motor vehicle safety. The corrective action will be to inspect if the powe steering cooling line is correctly routed. Concerned part will be replaced if necessary.
