

VEHICLE SAFETY/ POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicle

| | | | |
|-----------------------|--|------|-------------------|
| CAMPAIGN No. | 2841 | DATE | October 21 , 2011 |
| MANUFACTURER | Komatsu Ltd. | | |
| DESCRIPTION OF DEFECT | Due to improper release point on the clutch pedal of forklift truck, the shift position might be changed without fully disengaging the clutch, and inner parts of transmission might wear. Therefore, if a machine is continuously used under the above condition, inner parts of a transmission might be damaged, and a vehicle might not travel in the worst case. | | |
