

## VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

|                       |   |      |                    |
|-----------------------|---|------|--------------------|
| CAMPAIGN No.          | 2856  | DATE | November. 24. 2011 |
| MANUFACTURER          | HONDA MOTOR CO., LTD.   |      |                    |
| DESCRIPTION OF DEFECT | In the vehicle equipped with manual driving assist device (Honda Techmatic), the structure of the shaft seat in the brake link function is not appropriate, causing an excessive stress to be applied to the shaft seat. Therefore, if the vehicle continues to be driven in this condition, the tightening bolt at the shaft seat may crack. In the worst case, the bolt may break and the brake may become inoperative. |      |                    |
