

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic/Import Vehicles

CAMPAIGN No.	2903	DATE	March 1,2012
MANUFACTURER	HOWA MACHINERY,LTD.		
DESCRIPTION OF DEFECT	The dust cover is designed to keep dust and dirt out of the road sweeper's auxiliary engine compartment. The weight of dust or dirt, if allowed to accumulate during sweeping, may damage the mounts securing the dust cover. Extended use of the vehicle in this state may result in contact between the dust cover and the nearby chassis engine exhaust pipe, leading, in the worst-case scenario, to fire.
