

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

|                       |   |      |              |
|-----------------------|---|------|--------------|
| CAMPAIGN No.          | 3021  | DATE | Aug. 30 2012 |
| MUNUFACTURER          | Mitsubishi Fuso Truck and Bus Corporation   |      |              |
| DESCRIPTION OF DEFECT | On light-duty trucks and buses, the cushioning rubber which secures the fuel return hose to the engine is improper and the material released from the rubber (phthalate) makes the fuel hose soft and loose. The loose fuel hose may come off from the orifice to leak the fuel and, in the worst case, cause fire. |      |              |

| TYPE       | COMMERCIAL NAME | MODEL YEAR RECALLED | NUMBER OF VEHICLE |
|------------|-----------------|---------------------|-------------------|
