

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

CAMPAIGN No.	3056	DATE	Nov. 6 2012
MUNUFACTURER	Mitsubishi Fuso Truck and Bus Corporation		
DESCRIPTION OF DEFECT	On some light-duty trucks, the tightening torque for the double nuts which secure the parking brake cable to the parking brake lever is insufficient, and the nuts may loosen. If the truck continues to be used in this condition, the braking force of the parking brake will become poor and, in the worst case, the parking brake will become ineffective, or the parking brake cable will break.
