## Information Disclosure on Air Transport Services

### (The 3rd quarter in FY2013)

Ministry of Land, Infrastructure, Transport and Tourism (MLIT) discloses information on air transport services on a regular basis based on the policy described below so that air passengers can have free choice to select right air transport services with self-responsibility.

Accordingly, we compiled data from October to December in FY2013 based on the information provided by the specified Japanese air transport service providers, and please see below for details.

#### Outline

##### 1. Airlines covered under this policy

• "A Specified Japanese Air Transport Service Provider" ※: shall provide data by quarter

※The following "Specified Japanese Air Transport Service Providers" which run air transport services using aircraft having over 100 passenger seats or a maximum take-off weight over 50,000 kilograms.
