

Vehicle Safety/Pollution Recall Campaign in Japan

Import Vehicles

Campaign No.	Gai – 2032	Date	May 14,2014
Manufacturer	Jaguar Land Rover Limited (Japanese Importer : Jaguar Land Rover Japan Limited)		
Description of defect	<p>①,② Japanese Automobile Type Approval regulations require certain vehicles to have a device to have enhanced visibility requirements. Vehicles included in this compliance recall employ a five camera system, the front left, front right and left mirror cameras are used to provide the vision field as prescribed by Japanese regulations. One or both of these cameras may exhibit a white camera icon crossed out on a blue background on the centre display screen. Further the image displayed from these cameras does not provide the required field of vision to meet the compliance requirements. In both conditions, the system is not providing the necessary images in order to comply with the Japanese regulations.</p> <p>Hardware issue: Customers reported one or more camera views showing a blue screen and crossed out camera icon indicating image unavailable. The fault was found to be caused by water on critical areas of circuit board due to (1) condensation (2) seal degradation.</p> <p>Software issue: Japanese legal requirement TRIAS 44 requires a 1000mm high, 300mm diameter cylinder to be visible across the front left and left hand side of the vehicle. It has been found that the cylinder is not visible at the centre of the front bumper.</p> <p>③ A concern has been identified on certain Range Rover 2013 vehicles where the vehicle may not start due to an internal failure of the battery positive terminal. The vehicle battery located on the battery tray in the rear of the vehicle is not sufficiently isolated from the dynamic inputs experienced through 'normal' driving. These inputs result in an internal failure of the battery positive terminal and the vehicle will not start.</p>		

Type	Commercial name	Model year recalled	Number of vehicles
ABA-LG5NA	「Range Rover」	2013	125
ABA-LG5SA	「Range Rover」	2013	64
Total			189
