

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic ~~Import Vehicles~~

CAMPAIGN No.	Gai-2102	DATE	Oct 30, 2014
MANUFACTURE	General Motors Company (Japanese Importer : General Motors Japan Ltd. )		
DESCRIPTION OF DEFECT	General Motors has decided that a defect which relates to motor vehicle safety exists in 2014 model year Cadillac CTS vehicles. The wiper system in these vehicles may become inoperative after a vehicle jump start with wipers on and restricted (e.g. ice and snow) during jump condition. If the battery loses charge, then it is possible that an unstable voltage in the vehicle can reproduce this condition without an external jump start. With inoperative wipers, the driver would no longer be able to clear rain or snow from the windshield, and depending on weather conditions, visibility could be reduced potentially increasing the risk of a crash.
