

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Vehicles

CAMPAIGN No.	3509	DATE	Jan. 29 2015
MUNUFACTURER	Mitsubishi Fuso Truck and Bus Corporation		
DESCRIPTION OF DEFECT	On some heavy-duty sightseeing buses, the manually-foldable left mirror stay was assembled improperly, which caused weak axial tension of the mounting bolts at the mirror-side stay. Because of this, the mirror-side stay may crack due to the vibration during running, etc. If the bus continues to be used in this condition, the cracks will develop and, in the worst case, the left mirror may fall off.
