

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic/Import Vehicles

CAMPAIGN No.	3572	DATE	22 May, 2015
MANUFACTURER	SAKAI KIKOH CORPORATION		
DESCRIPTION OF DEFECT	<p>In the water pump's engines for the water sprinkler trucks, due to an irrelevant cam's figure, there is a possibility of the engine rotating in reverse if it is suddenly placed at its max RPM just before it would normally be shut down.</p> <p>Therefore, the element inside the air cleaner and the air cleaner cover involve the risk of being damaged by fire due to hot exhaust gasses being sent back into engine's intake.</p>		

TYPE	COMMERCIAL NAME	MODEL YEAR RECALLED	NUMBER OF VEHICLE
