

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Import Vehicles

CAMPAIGN No.	GAI-2180	DATE	May 21,2015
MANUFACTURER	Mitsubishi Motors North America, Inc.		
DESCRIPTION OF DEFECT	<p>During a frontal accident resulting in frontal airbag deployment, there is the potential for interaction between the deploying passenger airbag and the passenger sun visor if the sun visor is in the down position. Depending on the position of the sun visor in the down position, the deploying passenger airbag may remove the sun visor and sun visor holder propelling them rearward due to inappropriate retention force. In a worst case scenario, the removed sun visor and sun visor holder could strike a passenger seated in the front passenger seat, increasing their risk of injury.</p>
