Future Opportunities and Challenges

A large cargo ship is seen from a high angle, sailing on the ocean. The ship's deck is visible, showing several large, reddish-brown rectangular structures. The ocean is dark blue, and the sky is filled with dramatic, grey clouds. The sun is low on the horizon, creating a bright glow that illuminates the clouds and the ship's deck. The overall mood is one of vastness and potential.

Challenges

- Challenging ocean environment
- Global economic slowdown
- Changing demographics

Opportunities

- Strength in working together
- Produce highly skilled and well-educated graduates
- Research to advance our industry

“Smooth seas do not make skillful sailors.”
