

## VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic / Import Vehicles

CAMPAIGN No.	Gai-2284	DATE	2015/12/24
MANUFACTURE	Daimler AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd. )		
DESCRIPTION OF DEFECT	Daimler AG has become aware through its worldwide product observation that plugin hybrid vehicles of the circuit board of the high voltage onboard charger might not have been manufactured according to specifications. In case of an electrical malfunction of the circuit board, the charging function with an external charging cable might not be available. Furthermore the high voltage onboard charger might incorrectly detect a charging cable, even while driving and the vehicle would request to activate 'P'. Should this occur when the vehicle is in motion at speeds below 5 km/h, the transmission would activate the parking lock function.
