

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Import Vehicles

| | | | |
|-----------------------|--|------|-------------------|
| CAMPAIGN No. | GAI-2312 | DATE | February.18. 2016 |
| MANUFACTURER | Thai Honda Manufacturing Co., Ltd. | | |
| DESCRIPTION OF DEFECT | In the rear brake piping, the bolts for fastening the rear brake hose and the rear brake pipe together may have been undertightened because of inadequacies in the bolt tightening process. Such bolts can, whilst in use, come loose and cause the brake fluid to leak and could, in the very worst case, lead to loss of the rear brake's effectiveness. | | |

| TYPE | COMMERCIAL NAME | MODEL YEAR RECALLED | NUMBER OF VEHICLE |
|----------|-----------------|---------------------|-------------------|
| JBK-MF12 | 「FORZA Si」 | 2013 | 2,568 |
| | | TOTAL | 2,568 |
