

## VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic / Import Vehicles

CAMPAIGN No.	Gai-2364	DATE	2016/8/24
MANUFACTURE	Daimler AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd. )		
DESCRIPTION OF DEFECT	On certain GLE (166 platform) vehicles an issue within the software of the engine control unit might potentially cause an engine stall just before vehicle stop. The driver might falsely interpret the engine stall as planned shut-down as part of the ECO start/stop function. However, the engine will not restart automatically after releasing the brake pedal, but needs to be restarted manually.
