

## VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic / Import Vehicles

CAMPAIGN No.	Gai-2588	DATE	2018/1/31
MANUFACTURE	Daimler AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd. )		
DESCRIPTION OF DEFECT	On certain E-Class vehicles (213 platform) with 8-cylinder gasoline engine, a diagnostic code of the transmission control unit was classified as non-OBD-relevant by mistake. The erroneous classification of the fault code inhibits the detection of two OBD-relevant diagnostic codes and therefore inhibits the activation of the check engine warning lamp, although legally required.
