

# Announcement by Ministry of Land, Infrastructure, Transport and Tourism, Japan

Civil Aeronautics Act defines flight rules on Unmanned Aircraft (UA) as follows.

## ★ Prohibited Airspace for Flight

ATTENTION! Flight of UA is prohibited in the following areas. Any person who intends to operate UA in the prohibited area is required to obtain permission from MLIT, going through prescribed procedures.

## ★ Particulars to be observed when operating UA

Please conform to the following operation conditions when you operate UA! (Even after having obtained permission pursuant to the above or in case of operation in the area other than the prohibited airspace for flight, the following conditions must be observed.) Any person who intends to operate UA without conforming from ⑤ to ⑩ is required to obtain permission from MLIT, going through prescribed procedures.

## ★ Additional Considerations

- The flight prohibited areas for drones are designated based on the Act of Prohibit Flights of Small-sized Aircrafts. For details, please refer to

(The Act of Prohibit Flights of Small-sized Aircrafts) <https://www.npa.go.jp/english/uas/uas.html>

- Flight around specific areas such as temples, shrines and parks may be prohibited by Local Regulations.

For details of the amended Civil Aeronautics Act, please refer to <http://www.mlit.go.jp/en/koku/uas.html>

- Inquiry Counter for Unmanned Aircraft: Aviation Safety and Security Department, Civil Aviation Bureau, MLIT

### 【Announcement by Ministry of Internal Affairs and Communications】

- License-free radio equipment (including license-free radio equipment for UA) without "Technical Conformity Mark" cannot be used and may provoke illegal use in Japan, even if the equipment is based on a foreign standard.
