

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic Import Vehicles

|                       |      |  |                   |
|-----------------------|------|--|-------------------|
| CAMPAIGN NO.          | 4679 | DATE   | February 27 ,2020 |
| MANUFACTURER          |      | ISUZU MOTORS LIMITED   |                   |
| DESCRIPTION OF DEFECT |      | In the heavy duty truck that runs on compressed natural gas (CNG), there are some where the inappropriate control of the main stop valve causes vibration when the fuel gas is filled, resulting in cracks on the fuel pipe. Consequently, such cracks may grow as refueling is repeated, possibly leading to fuel leak. |                   |
