

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic ~~Import Vehicles~~

CAMPAIGN No.	Gai-2996	DATE	2020/3/10
MANUFACTURE	Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd.)		
DESCRIPTION OF DEFECT	<p>On certain C-Class (205 platform), GLC-Class (253 platform), E-Class (213 platform), CLS-Class (257 platform), AMG GT (290 platform) and G-Class (463 platform) vehicles, certain front seat belt buckles might not have been manufactured according to specification. A correctly fastened seat belt could be erroneously detected as not fastened.</p> <p>The driver would be made aware of this circumstance by a warning symbol in the instrument cluster as well as an acoustic warning signal instantly upon the start of the drive. If the driver were to ignore these warnings, neither the electric (PRE-SAFE®-function) nor the pyrotechnic tensioning would be activated in the event of a crash with activation of the restraint systems. Thus, the full effect of the restraint system could be impaired. As a consequence, the risk of injury for the front passengers would be increased.</p>
