

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic ~~Import Vehicles~~

CAMPAIGN No.	Gai-3120	DATE	2020/11/5
MANUFACTURE	Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd.)		
DESCRIPTION OF DEFECT	<p>On certain G-Class vehicles (463 platform) a hose of the fuel filler pipe might leak. In this case, small amounts of fuel might leak during refueling. A contact of potentially leaking fuel with hot components (e.g. exhaust system) is excluded, therefore a risk of fire is excluded as well.</p> <p>Nonetheless, local legal regulations regarding fuel system tightness could not be met. On vehicles with gasoline engine, the legal emission limits for fuel evaporation could be exceeded.</p>
