

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic/Import Vehicles

CAMPAIGN No.	4882	DATE	January 26, 2021
MANUFACTURER	Mitsubishi Logisnext Co., Ltd		
DESCRIPTION OF DEFECT	Some batteries of the electric forklift have a positive pole made of a material that contains impurities and that causes corrosion made by the combination of specific pole and impurities. If it is continuously used in the state, the pole breaks and electricity is not supplied to the forklift, making it impossible for the forklift to operate in the worst case.
