

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic ~~Import Vehicles~~

CAMPAIGN No.	Gai-3224	DATE	2021/6/3
MANUFACTURE	Mercedes-Benz AG (Japanese Importer : Mercedes-Benz Japan Co., Ltd.)		
DESCRIPTION OF DEFECT	<p>On certain GLE and (167 platform) the air conditioning drain hoses might be incorrectly fitted in the vehicle. In this case, condensation water from the air conditioning might enter the passenger compartment.</p> <p>If condensation water enters into the driver and passenger side footwells, it might cause corrosion and/or short circuits to the electrical components installed in this area.</p> <p>This condition would increase the risk of fire due to a short circuit. In addition, the performance of other features of the vehicle could be impacted such as the automatic emergency call (eCall) might not be available, the vehicle might not be able to be unlocked and/or started and the engine limp-home mode might be activated during driving.</p> <p>This increases the potential risk of injury or a crash.</p>
