

VEHICLE SAFETY/POLLUTION RECALL CAMPAIGN IN JAPAN

Import Vehicles

| | | | |
|-----------------------|---|------|---------------|
| CAMPAIGN No. | GAI-3248 | DATE | July. 8. 2021 |
| MANUFACTURER | Thai Honda Manufacturing Co., Ltd. | | |
| DESCRIPTION OF DEFECT | Headlights may have allowed soldering flux to remain on the surface of the contacts of the high beam/low beam switch due to a structural fault in the contacts of the high beam/low beam switch. Such headlights can suffer contact failure of the high beam/low beam switch, which could, in the very worst case, cause the high beams to fail to come on. | | |

| TYPE | COMMERCIAL NAME | MODEL YEAR RECALLED | NUMBER OF VEHICLE |
|----------|-----------------|---------------------|-------------------|
| 2BK-MC49 | 「Rebel 250」 | 2019-2021 | 15,828 |
| 2BK-MF13 | 「FORZA」 | 2018-2020 | 6, 592 |
| | | TOTAL | 22,420 |
