

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic / ~~Import~~ Vehicles

CAMPAIGN No.	5045	DATE	Dec. 17, 2021
MANUFACTURER	NIPPON FRUEHAUF COMPANY LIMITED		
DESCRIPTION OF DEFECT	<p>①Some wing trucks, the hydraulic hoses for opening and closing the wing are improperly distributed and come into contact with the upper corners of the frame. If the wing is repeatedly opened and closed in this condition, the hose may be damaged by being pressed hard against the corner, causing hydraulic oil to leak and the wing to stop operating. In the worst case, if the wing opening hose is damaged when the wing is opened, the wing may drop.</p> <p>②On medium-sized wing trucks, the tightening of the closing hose joint of the hydraulic cylinder for opening and closing the wing is inappropriate, and the joint may loosen. If the wing is repeatedly opened and closed in this condition, the hose may contact the frame and be damaged, causing hydraulic oil to leak and the wing to stop operating.</p>
