

VEHICLE SAFETY / POLLUTION RECALL CAMPAIGN IN JAPAN

Domestic ~~Import Vehicles~~

CAMPAIGN No.	Gai-3332	DATE	January 13, 2022
MANUFACTURE	General Motors Company (Japanese Importer : General Motors Japan Ltd.)		
DESCRIPTION OF DEFECT	In some 2020 and 2021 model year Chevrolet Corvette vehicles, equipped with an automatic transmission, the Transmission Control Module (TCM), after detecting a loss of communications fault with other control modules, may incorrectly clear the loss of communications Diagnostic Trouble Codes (DTCs) when the vehicle is keyed off and, if the loss of communications fault persists, may not detect it again when the vehicle is keyed back on. If this were to happen, the transmission could operate in a default mode with no DTC set and the MIL not illuminated.
